

Affiliations and memberships.

Kiss Custom is the custom build offer from self build experts Kiss House. Here we provide info and links to some of the industry organisations we are affiliated to and members of

Chartered Institute of Building (CIOB)

Kiss House is a CIOB Chartered Building Consultancy.

Organisations Chartered with CIOB are independently assessed and regularly audited. They can demonstrate that they are competently and professionally run, operate to high business and ethical standards, and are committed to developing a fully-qualified workforce.

CIOB is an international organisation which stands for the science, ethics and best practice of built environments across the world. Find out more [here](#).

Passivhaus Trust

We are members of the Passivhaus Trust.

The trust is a leading independent organisation that promotes the adoption of Passivhaus in the UK and works tirelessly to improve building performance.

PHT is part of the global Passivhaus movement and the official UK affiliate of the International Passive House Association (iPHA). Read more [here](#).

National Custom and Self Build Association (NaCSBA)

We are Nacsba members. Nacsba is the voice of the custom and self build housing sector. Their mission is to make custom and self build a mainstream choice for everyone seeking a home of their own. Read more [here](#).

The Association for Environment Conscious Building (The AECB)

We are AECB members. The association is a network of individuals and companies who share the common aim of promoting sustainable building. The AECB has been the largest and oldest network for sustainable building since the 1980s. Read more [here](#).

Built by Nature

Our co-founder Mike Jacob is a BnB Ambassador, and Kiss House is a BnB "frontrunner".

Built by Nature is a network and grant-making fund dedicated to accelerating the timber building transformation in Europe. Radically reducing embodied carbon, safely storing carbon in our buildings for generations and sequestering carbon by championing forest stewardship and regeneration. Read more [here](#).

Lathams carbon calculator

Kiss House is a Lathams Carbon Calculator Ambassador. The calculator gives guidance on the carbon footprint of products sold by James Latham. It highlights the benefits of using sustainable timber-based products.

James Latham is dedicated to creating sustainable change in construction. Lathams is the UK's largest independent distributor of timber panel products. They have a rich heritage spanning more than 260 years and have been regarded as pioneers throughout this time. Read more [here](#).
